HOW TO CITE RULES AND RSMO

RULES

The rules are codified in the *Code of State Regulations* in this system–

Title	CSR	Division	Chapter	Rule
3	<i>Code of</i>	10-	4	115
Department	<i>State</i>	Agency	General area	Specific area
	<i>Regulations</i>	division	regulated	regulated

and should be cited in this manner: 3 CSR 10-4.115.

Each department of state government is assigned a title. Each agency or division in the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraphs 1., subparagraphs A., parts (I), subparts (a), items I. and subitems a.

The rule is properly cited by using the full citation; for example, 3 CSR 10-4.115, NOT Rule 10-4.115.

Citations of RSMo are to the *Missouri Revised Statutes* as of the date indicated.

Code and Register on the Internet

The *Code of State Regulations* and *Missouri Register* are available on the Internet.

The *Code* address is sos.mo.gov/adrules/csr/csr

The *Register* address is sos.mo.gov/adrules/moreg/moreg

These websites contain rulemakings and regulations as they appear in the *Code* and *Registers*.

Rules appearing under this heading are filed under the authority granted by section 536.025, RSMo. An emergency rule may be adopted by an agency if the agency finds that an immediate danger to the public health, safety, or welfare, or a compelling governmental interest requires emergency action; follows procedures best calculated to assure fairness to all interested persons and parties under the circumstances; follows procedures which comply with the protections extended by the Missouri and the United States Constitutions; limits the scope of such rule to the circumstances creating an emergency and requiring emergency procedure, and at the time of or prior to the adoption of such rule files with the secretary of state the text of the rule together with the specific facts, reasons, and findings which support its conclusion that there is an immediate danger to the public health, safety, or welfare which can be met only through the adoption of such rule and its reasons for concluding that the procedure employed is fair to all interested persons and parties under the circumstances.

Rules filed as emergency rules may be effective not less than ten (10) business days after filing or at such later date as may be specified in the rule and may be terminated at any time by the state agency by filing an order with the secretary of state fixing the date of such termination, which order shall be published by the secretary of state in the Missouri Register as soon as practicable.

All emergency rules must state the period during which they are in effect, and in no case can they be in effect more than one hundred eighty (180) calendar days or thirty (30) legislative days, whichever period is longer. Emergency rules are not renewable, although an agency may at any time adopt an identical rule under the normal rulemaking procedures.

TITLE 12 – DEPARTMENT OF REVENUE

Division 10 – Director of Revenue

Chapter 26 – Dealer Licensure

EMERGENCY AMENDMENT

12 CSR 10-26.230 Dealer Administrative Fees and System Modernization. The department is amending section (1).

PURPOSE: This amendment adds trailer dealers as being allowed to collect an administrative fee, pursuant to section 301.558, RSMo, which was amended August 2025.

EMERGENCY STATEMENT: The director of revenue is mandated to calculate and furnish to the public the maximum administrative fee permitted under Section 301.558, RSMo. Section 301.558, RSMo, identifies which dealers are allowed to collect this fee. Section 301.558 was amended in August 2025 to allow trailer dealers to collect the fee. This emergency amendment is necessary to ensure public awareness and to preserve a compelling governmental interest requiring an early effective date in that the amendment informs the public that trailer dealers will be collecting the maximum fee paid on vehicles for the 2026 calendar year. A proposed amendment, that covers the same material, is published

in this issue of the Missouri Register. The director has limited the scope of the emergency amendment to the circumstances creating the emergency. The director has followed procedures calculated to assure fairness to all interested persons and parties and has complied with protections extended by the Missouri and United States Constitutions. Emergency amendment filed February 4, 2026, effective February 20, 2026, expires August 18, 2026.

(1) Beginning December 1, 2021, all motor vehicle dealers, boat dealers, **trailer dealers**, and powersport dealers licensed pursuant to sections 301.550 to 301.580, RSMo ("licensees"), who charge an administrative fee as allowed under section 301.558, RSMo, must remit funds equaling ten percent (10%) of all administrative fees collected to the Motor Vehicle Administration Technology Fund (the "fund") for the implementation of the modernized, integrated system described in section 301.558, RSMo. If an administrative fee is charged but is later refunded or credited back to the purchaser of a vehicle or vessel, no credit or refund will be permitted on any fees remitted to the fund.

(A) Beginning on January 20, 2022, for motor vehicle, boat, **trailer dealers**, and powersport sales in December 2021, and on or about the 20th of each month thereafter for sales occurring the month prior, an electronic notification will be generated and issued to each licensee which charges an administrative fee in compliance with section 301.558, RSMo. The electronic notification will indicate the amount due and payable to the fund, and the licensee must authorize the Department of Revenue to initiate an automated clearing house (ACH) transaction with the licensee's financial institution to credit/debit the amount due and payable to the fund. The amount due and payable will be ten percent (10%) of each administrative fee charged by the licensee based upon the total number of sales reported in the previous month, as well as any additional or amended sales in prior monthly sales reports, less any sales exempted pursuant to section 301.558, RSMo.

1. Any licensee charging administrative fees must provide the following information to the Department of Revenue:

- A. Name of the bank or other financial institution;
- B. Banking or other financial institution account number;
- C. Banking or other financial institution routing number;
- D. Whether or not the account is a checking or savings account;
- E. Signature of an authorized person on the bank or other financial institution account; and
- F. Any other information necessary to complete the monthly ACH transaction.

AUTHORITY: sections 301.553 and 301.558, RSMo Supp. [2022] 2025. Emergency rule filed Aug. 19, 2021, effective Sept. 2, 2021, expired Feb. 28, 2022. Original rule filed Aug. 19, 2021, effective Feb. 28, 2022. Amended: Filed Feb. 1, 2023, effective Aug. 30, 2023. Emergency rule filed Feb. 4, 2026, effective Feb. 20, 2026, expires Aug. 18, 2026. A proposed amendment covering the same material is published in this issue of the Missouri Register.

PUBLIC COST: This emergency amendment will not cost state agencies or political subdivisions more than five hundred dollars (\$500) in the time the emergency amendment is effective.

PRIVATE COST: This emergency amendment will not cost private entities more than five hundred dollars (\$500) in the time the emergency amendment is effective.

The text of proposed rules and changes will appear under this heading. A notice of proposed rulemaking is required to contain an explanation of any new rule or any change in an existing rule and the reasons therefor. This explanation is set out in the PURPOSE section of each rule. A citation of the legal authority to make rules is also required, and appears following the text of the rule, after the word "Authority."

Entirely new rules are printed without any special symbology under the heading of proposed rule. If an existing rule is to be amended or rescinded, it will have a heading of proposed amendment or proposed rescission. Rules that are proposed to be amended will have new matter printed in boldface type and matter to be deleted placed in brackets.

An important function of the *Missouri Register* is to solicit and encourage public participation in the rulemaking process. The law provides that for every proposed rule, amendment, or rescission there must be a notice that anyone may comment on the proposed action. This comment may take different forms.

If an agency is required by statute to hold a public hearing before making any new rules, then a Notice of Public Hearing will appear following the text of the rule. Hearing dates must be at least thirty (30) days after publication of the notice in the *Missouri Register*. If no hearing is planned or required, the agency must give a Notice to Submit Comments. This allows anyone to file statements in support of or in opposition to the proposed action with the agency within a specified time, no less than thirty (30) days after publication of the notice in the *Missouri Register*.

An agency may hold a public hearing on a rule even though not required by law to hold one. If an agency allows comments to be received following the hearing date, the close-of-comments date will be used as the beginning day in the ninety- (90-) day count necessary for the filing of the order of rulemaking.

If an agency decides to hold a public hearing after planning not to, it must withdraw the earlier notice, file a new notice of proposed rulemaking, and schedule a hearing for a date not less than thirty (30) days from the date of publication of the new notice.

**Division 10 – Missouri Highways and Transportation

**Chapter 10 – Contractor Performance Rating to
Determine Responsibility**

PROPOSED AMENDMENT

7 CSR 10-10.020 Explanation of Contractor Performance Rating System. The Missouri Highways and Transportation Commission is amending sections (1), deleting sections (2) and (3), and adding a new section (2).

PURPOSE: This amendment identifies the rating and recognition system.

(1) The commission has the obligation to award its contracts to only responsive and responsible bidders. The commission also has the duty to supervise and control the construction and maintenance of its state highway system. Inherent in these concepts, and in the commission's general obligation to the traveling public of this state, is that the commission must regulate those who construct the finished highway product. *[Therefore, it requires a system for evaluating the performance of those contractors working on commission projects.]*

(2) This contractor rating system is intended to help the commission periodically determine those contractors who are responsible or are nonresponsible and those responsible contractors whose outstanding or superior performance merits recognition by the commission. In the process, the rating system is intended to provide the contractors with evaluations of their work and information they can use to improve their performance.

(3) These regulations also set forth the procedures governing how contractors who render unsatisfactory performance may be determined nonresponsible and ineligible to bid for work on commission projects and how nonresponsible contractors may be reinstated as responsible bidders or responsible contractors.]

(2) The contractor rating system is intended to help the commission periodically determine those responsible contractors whose outstanding or superior performance merits recognition by the commission. The focus of the recognition will be on excellence in partnering. At the start of each calendar year, contractors will have the opportunity to nominate projects they believe demonstrate outstanding partnerships. Missouri Department of Transportation (MoDOT) will review the nominated projects and select those that will be recognized. The commission will be informed of contractors being recognized. The recognized contractors will be informed and invited to the annual meeting.

SUMMARY OF COMMENTS: The department received one (1) comment on the proposed amendment.

COMMENT #1: Nick Bleess submitted a comment with two (2) concerns about the proposed amendment. First, he expressed concern about hotels and manufacturers who make purchases over time and is concerned the language of the amendment may be confusing when it comes to multiple refund claims. Secondly, he suggested the department modify the rule to address the issue of an unresponsive seller.

RESPONSE AND EXPLANATION OF CHANGE: The department unfortunately cannot issue a refund unless we can confirm that payment of the tax was made to the department. The department at this time will not be modifying the amendment in regard to the issue of an unresponsive seller. However, the department has chosen to remove the sentence that seems to be leading to the confusion about multiple refund claims.

This restriction only applies to overpayments based on sales and it does not apply to overpayments based on purchases. However, a taxpayer may receive more than one (1) refund for the same issue of overreported taxable sales if the subsequent overreported taxable sales were the result of any of the following:

1. Receipt of additional information or an exemption certificate from the purchaser of the item at issue;
2. A decision of a court of competent jurisdiction or the administrative hearing commission; or
3. Changes in regulations or policy by the Department of Revenue.

ORDER OF RULEMAKING

By the authority vested in the Department of Health and Senior Services under section 195.015, RSMo Supp. 2025, and section 195.195, RSMo 2016, the department amends a rule as follows:

**19 CSR 30-1.002 Schedules of Controlled Substances
is amended.**

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on November 17, 2025 (50 MoReg 1671-1679). No changes have been made to the text of the proposed amendment, so it is not

reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The department received comments from one (1) person on the proposed amendment.

COMMENT #1: Stephen Witte, legal counsel with the department, noted that the Drug Enforcement Administration issued a temporary order on October 15, 2025, which scheduled seven benzimidazoleopioids in Schedule I of the Controlled Substances Act. In addition, the Drug Enforcement Administration issued a final rule on November 17, 2025, placing 4-chloromethcathinone (4-CMC, 1-(4-chlorophenyl)-2-(methylamino)propan-1-one), including its salts, isomers, and salts of isomers, in Schedule I of the federal Controlled Substances Act. The Missouri rule should be changed accordingly to reflect the changes made in the federal rules.

RESPONSE: Staff agrees that the DEA added additional controlled substances to Schedule I during the period the original proposed amendment was out for public comment. However, adding additional controlled substances to the Missouri controlled substance schedule rule without giving the public a chance to comment would not be prudent or fair at this juncture. No changes have been made to the rule as a result of this comment.

**TITLE 20 – DEPARTMENT OF COMMERCE AND
INSURANCE
Division 4240 – Public Service Commission
Chapter 10 – Utilities**

ORDER OF RULEMAKING

By the authority vested in the Public Service Commission under section 386.820, RSMo Supp. 2025, the commission adopts a rule as follows:

20 CSR 4240-10.035 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on October 1, 2025 (50 MoReg 1370-1375). Those sections with changes are reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The public comment period ended November 5, 2025, and the commission held a public hearing on the proposed rule on November 13, 2025. The commission received seven (7) written comments during the comment period and eleven (11) people commented at the hearing. All the comments were generally in support of the proposed rule with a few suggested changes.

COMMENT #1: J. Scott Stacey on behalf of the staff of the commission filed written comments and commented at the hearing in support of the proposed rule. Staff also provided a written summary of the written comments and responses to those comments at the hearing. Staff noted that the proposed rule was necessary as a result of Senate Bill No. 4 (truly agreed to and finally passed on March 13, 2025, signed by Governor Kehoe on April 9, 2025, and effective August 28, 2025) which added section 386.820, RSMo, requiring the commission to promulgate commercially reasonable rules governing an opt-out process using advanced meters or hub meters for customers.

RESPONSE: The commission thanks its staff for its work on this proposed rule. No change was made as a result of staff's general comment in support of the proposed rule. Staff's responses to other parties' comments, if applicable, are set out below.

COMMENT #2: Anna Martin and Geoff Marke on behalf of the Office of the Public Counsel (OPC) commented at the hearing in support of the proposed rule. OPC stated that it was also supportive of the commission staff's response to the other comments.

RESPONSE: The commission thanks OPC for its participation in the rulemaking process. No changes were made as a result of this comment.

COMMENT #3: Paula Johnson on behalf of Union Electric Company d/b/a Ameren Missouri filed written comments and commented at the hearing in support of the proposed rule. Ameren Missouri suggested striking the last sentence of subparagraph (3)(A)2.A., for clarification in the situation where a customer has two (2) Ameren Missouri meters and two (2) Ameren Missouri accounts — one (1) for gas and one (1) for electricity. Staff responded with a language modification that would clarify that the fees applied per meter and not per account. Ameren Missouri responded that staff's suggested change alleviated their concerns.

RESPONSE AND EXPLANATION OF CHANGE: The commission has considered the comments of Ameren Missouri and the responses of staff and the other commenters and determines that the word "account" should be changed to "meter" in subparagraph (3)(A)2.A. to address the situation where a single customer has multiple Ameren Missouri accounts. Therefore, the commission makes changes to subparagraph (3)(A)2.A.

COMMENT #4: Ameren Missouri commented that paragraph (3)(A)3. is unclear if the interest rate percentage is applicable to the unpaid amount due to inaccurate or failed reporting or applicable to the total bill. Ameren Missouri also says that it is unclear if the percentage is calculated one (1) time or each

month and if it is compounded. Ameren Missouri states that in most cases, the utility will be unable to determine the period during which any underbilling occurred. Staff responded that while it believes the rule is clear on these points, the utilities will need to amend their tariffs to implement provisions in compliance with the rule and, therefore, technical details of implementation can be set out in those tariffs. Ameren Missouri responded that the clarification that the implementation details will be set out in the utility's tariffs alleviate the company's concerns.

RESPONSE: The commission has considered the comments of Ameren Missouri and the responses of staff and the other commenters. The commission determines that no change is necessary as these implementation details will be set out in the utilities' tariffs. Therefore, no change was made as a result of this comment.

COMMENT #5: Ameren Missouri commented with regard to section (4) that it is appreciative of the inclusion of this section because the company is already purchasing refurbished metering equipment for its traditional meters due to that being the only equipment of that style available. Ameren Missouri stated that because of various security concerns, even if a particular type of meter is commercially available, it may not be an appropriate meter to use.

RESPONSE: The commission has considered the comments of Ameren Missouri and of the other commenters. The commission determines that the statute requires the commission promulgate commercially reasonable rules to govern the opt-out process for use of traditional meters instead of advanced meters or hub meters. Allowing the utilities to acquire meters from a vendor that meets the utilities' specifications, is commercially reasonable. No change is necessary as a result of these comments.

COMMENT #6: Ameren Missouri commented with regard to subsections (5)(A) and (5)(B) that it anticipates a high degree of errors initially from customers electing to self-report meter readings. Thus, Ameren Missouri stated that it anticipates needing to closely monitor the usage of opt-out customers during the initial period of use. Additionally, Ameren Missouri commented that in order for self-reading to be effective, it must occur at regular and very reliable intervals. Billing cycles cannot be held up because the utility receives a late meter reading. Ameren Missouri, therefore, suggested clarifications to subsections (5)(A) and (5)(B) to help alleviate future issues. Ameren Missouri recommended removing the postal service as a means for the provision of meter reading and noted that meter readings received late will result in estimated bills which it believes is necessary. Ameren Missouri also commented that physical access to the meters will be necessary to allow the company to verify the self-read meters. Staff replied that section (5) of the proposed rule includes that the customer-supplied readings must be in compliance with 20 CSR 4240-13.020 and with the utility's commission-approved tariffs. The referenced rule addresses estimated meter reads and allows for postpaid, preaddressed postcards. Staff also stated that further clarification may be added for the process when the utilities incorporate these rule provisions in their tariffs. Thus, staff did not recommend changes.

RESPONSE: The commission has considered the comments of Ameren Missouri, staff, and of the other commenters. The commission agrees with staff that the reference to the other billing and service regulations will control when estimated meter reads may be obtained and the requirements for how estimated billing will be accomplished. Further, when the

utilities update their tariffs, they will have the opportunity to specify in further detail how the meter reading process will be accomplished. Therefore, the commission has made no change as a result of these comments.

COMMENT #7: J. Antonio Arias filed written comments and David Yonce commented at the hearing on behalf of Spire Missouri Inc. In its written comments, Spire proposed a new subsection (5)(D) to add a provision stating the utilities may manually read a customer's meter if the customer fails to do so. Staff responded to Spire's comments that because of the proposed rule reference to other commission regulations and the ability of the utility to make additional clarification when updating its tariffs, these changes were unnecessary. At the comment hearing, Spire indicated that it was satisfied with staff's response and did not believe further change was needed.

RESPONSE: The commission thanks Spire for its comments and explanation. The commission agrees with staff that any additional clarifications of the meter reading process are either addressed in other commission regulations or can be set out when the utilities update their tariffs. No changes were made as a result of this comment.

COMMENT #8: Rachel Niemeier filed written comments and Jennifer Coleman commented at the hearing on behalf of Missouri-American Water Company (MAWC). MAWC commented that subsection (2)(C) should be amended to add to the definition of "commercially available" that the supplier is approved by the utility for the same reasons as the other utilities brought forward. MAWC recommended putting an effective date for the provisions of the rule. Staff responded that the statute includes the date for which customers may commence opting out of an advanced meter or hub meter, so it is not required to be in the regulation. MAWC also commented that it will need physical access to read the meters that customers are self-reporting and proposed adding a new section (9) to provide the utility with a path forward in the event a customer fails to provide meter reads in a timely manner. MAWC also recommended adding a new section (10) to establish responsibility for any damages sustained when a customer reads their meter. Staff responded that other commission regulations govern the process of meter reading access and the utilities will have the ability to provide greater details when their tariffs are updated. MAWC also commented that subsection (8)(B) should be deleted as it requires reporting that is beyond the statutory purpose of accommodating customers who do not want advanced meters. Staff disagreed. Staff stated that the inclusion of this provision will aid the commission and staff in evaluating the cost and impact of the advanced meter opt-out provisions and should, therefore, remain in the rule. Finally, MAWC provided comments explaining some of the challenges for customers self-reading their meters including that water meters are often located in an outdoor meter pit in the ground and may be submerged in water if there has been a recent rain event.

RESPONSE: The commission thanks MAWC for its comments. Since the statute requires that customers be able to opt-out of advanced or hub meters by July 1, 2026, there is no need to add the date, which will quickly become superfluous, to the rule. The commission agrees with staff that any additional clarifications of the meter reading process are either addressed in other commission regulations or can be set out when the utilities update their tariffs. The commission also agrees with staff that the filing requirement in subsection (8)(B) will aid the commission and staff in evaluating the cost of these

regulations and should remain in the regulation. Additionally, section 386.820.2(4) sets out that a utility shall not be liable for injuries or damages sustained as a result of a customer's meter reading absent willful misconduct or gross negligence. Thus, the commission need not repeat this language in the regulation. Therefore, the commission makes no change as a result of these comments.

COMMENT #9: Roger W. Steiner, on behalf of Evergy Metro, Inc. d/b/a Evergy Missouri Metro and Evergy Missouri West d/b/a Evergy Missouri West (collectively referred to as "Evergy"), filed a written comment. Evergy commented that it was generally supportive of the proposed rule. Evergy stated that it has previously established an advanced meter opt-out/self-read program authorized by the commission. Evergy recommended changes to the definition of "commercially available" to make sure that meters meet utility specifications. Evergy also recommended changes to subsections (5)(D) and (5)(E) to address situations where customers refuse to provide access to the meters and to provide clarity to customers and the utility regarding the process when a customer does not provide timely or accurate meter reading. Evergy also suggested a change to the definition of "inaccurate information" to add a rebuttable presumption that addresses minor differences in readings using two percent (2%) as a threshold to define minor differences. Staff responded that the language in proposed section (4) provides a process for the utility to discontinue the opt-out process and to provide information in its discontinuance filing sufficient to determine traditional meters are not commercially available. Staff also responded that no change is needed with regard to adding a rebuttable presumption to the definition of "inaccurate information." Staff also responded that no change was needed regarding physical access to meters or untimely or inaccurate meter reads because section (5) of the proposed rule includes that the customer-supplied readings must be in compliance with 20 CSR 4240-13.020 and with the utility's commission-approved tariffs. Staff also stated that further clarification may be added for the process when the utilities incorporate these rule provisions in their tariffs.

RESPONSE: The commission thanks Evergy for its comments and information. The commission agrees with staff that the reference to the other billing and service regulations will control when estimated meter reads may be obtained and the requirements for how estimated billing will be accomplished. Further, when the utilities update their tariffs they will have the opportunity to specify in further detail how the meter reading process will be accomplished. Therefore, the commission has made no change as a result of these comments.

COMMENT #10: Diana Carter commented on behalf of The Empire District Electric Company d/b/a Liberty, The Empire District Gas Company d/b/a Liberty, Liberty Utilities (Missouri Water) LLC d/b/a Liberty, and Liberty Utilities (Midstates Natural Gas) Corp. d/b/a Liberty in support of the proposed rule and the flexibility afforded to the utilities by allowing the details of the process to be provided in the individual company tariffs.

RESPONSE: The commission thanks the Liberty companies for its comment. No changes were made as a result of this comment.

COMMENT #11: Robert Workman filed written comments and commented at the hearing. Mr. Workman was concerned that the language in the rule should specify that a traditional meter is a mechanical meter. Mr. Workman listed several reasons why he believed digital meters were concerning to him including

the injection of “dirty power,” privacy issues, and issues with potentially being overcharged. Mr. Workman also discussed why he believes mechanical meters are preferable to digital meters. Staff responded noting that some meters are available without a communication module but will still have a digital viewing screen.

RESPONSE: The commission thanks Mr. Workman for his comments. The purpose of the proposed rule is to set out a process allowing customers to opt out of having an advanced meter or hub meter in compliance with the statutory requirements. Section 386.820, RSMo, defines “traditional meter.” Therefore, the commission does not need to define traditional meter beyond the language in the statute. No changes were made as a result of these comments.

COMMENT #12: Elizabeth Peterson filed written comments and commented at the hearing. Ms. Peterson stated that the language in the proposed rule is too ambiguous regarding the definition of “traditional meter.” Ms. Peterson believes the rule needs to specify that a traditional meter is an analog meter. Ms. Peterson believes that non-analog meters pose potential physical harm. Staff responded noting that some meters are available without a communication module but will still have a digital viewing screen.

RESPONSE: The commission thanks Ms. Peterson for her comments. The purpose of the proposed rule is to set out a process allowing customers to opt out of having an advanced meter or hub meter in compliance with the statutory requirements. Section 386.820, RSMo, defines “traditional meter.” Therefore, the commission does not need to define traditional meter beyond the language in the statute. No changes were made as a result of these comments.

COMMENT #13: Bob Peterson commented at the hearing. Mr. Peterson commented that he has concerns with electromagnetic waves and electromagnetic fields and believes that the commission and the general public have been misled by utility companies stating that these do not cause harm. Mr. Peterson commented that customers should have a choice with regard to analog and smart meters.

RESPONSE: The commission thanks Mr. Peterson for his comments. The purpose of the proposed rule is to set out a process which will allow customers to opt out of having an advanced meter or hub meter in compliance with the statutory requirements. Therefore, the commission finds no change to the proposed rule is needed as a result of these comments.

COMMENT #14: Catherine Cogorno commented at the hearing. Ms. Cogorno commented that she supported the comments of Mr. Workman and Ms. Peterson. Ms. Cogorno commented that she believed wire radiation and smart meters are causing health problems to herself and others.

RESPONSE: The commission thanks Ms. Cogorno for her comments. The purpose of the proposed rule is to set out a process which will allow customers to opt out of having an advanced meter or hub meter in compliance with the statutory requirements. Therefore, the commission finds no change to the proposed rule is needed as a result of these comments.

20 CSR 4240-10.035 Residential Advanced Meter or Hub Meter Opt-Out

(3) All utilities shall file with the commission a tariff that governs its advanced meter or hub meter opt-out process.

(A) The tariff may include –

1. A one- (1-) time all-inclusive fee, not to exceed one

hundred twenty-five dollars (\$125), for removal of an advanced or hub meter and to provide and install a traditional meter;

2. A monthly meter use fee, not to exceed fifteen dollars (\$15), for the use of a traditional meter.

A. The utility may propose a single monthly fee for all customers using a traditional meter, or it may propose separate monthly fees for customers who elect to self-read the traditional meter and for those whose meters are read by the utility. In no event shall a utility assess more than one (1) monthly fee per meter for the use of a traditional meter; and

3. An interest charge on any unpaid amount the utility may assess due to the customer's failure to report usage or reporting inaccurate information in any given billing cycle. Such interest rate shall be no greater than five percent (5%).

TITLE 20 – DEPARTMENT OF COMMERCE AND INSURANCE

ORDER OF RULEMAKING

By the authority vested in the Public Service Commission under section 393.140, RSMo 2016, and section 386.760, RSMo Supp. 2025, the commission amends a rule as follows:

20 CSR 4240-10.165 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on October 1, 2025 (50 MoReg 1376). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The public comment period ended November 14, 2025, and the commission held a public hearing on the proposed amendment on November 21, 2025. The commission received two (2) written comments during the comment period and two (2) people commented at the hearing. All the comments were generally in support of the proposed amendment with a few suggested changes.

COMMENT #1: J. Scott Stacey on behalf of the staff of the commission filed written comments and commented at the hearing in support of the proposed amendment. Staff stated that due to the passage of Senate Bill No. 4, the provisions of which became effective on August 28, 2025, the amendment was necessary to update the standards, requirements, procedures, and prohibitions for whenever the utilities participate in transactions with affiliates. Staff also responded to the comments of Spire Missouri Inc. as set out below.

RESPONSE: The commission thanks its staff for its work on this proposed amendment. No change was made as a result of staff's general comment in support of the proposed amendment. The commission's reply to staff's response to Spire Missouri Inc.'s comments are set out below.

COMMENT #2: J. Antonio Arias filed written comments and commented at the hearing on behalf of Spire Missouri Inc. Spire was generally supportive of the proposed amendment but asked for clarification regarding how the “indirectly engage” language would be applied in order to determine if tariff changes would be necessary. At the hearing, staff

replied with a proposed change to section (3) to address Spire concerns. Spire agreed with staff's proposal at the hearing.
RESPONSE AND EXPLANATION OF CHANGE: The commission thanks Spire for its comments and participation in the rulemaking process. The commission agrees with staff and Spire that section (3) should be clarified and will make the recommended change.

20 CSR 4240-10.165 Prohibition on HVAC Services Unless Providing Services Required by Law or Providing Programs Pursuant to an Existing Tariff, Rule, or Order of the Commission

(3) Covered utilities shall develop a written qualification process for all utility contractors engaged in HVAC services and shall advertise bid opportunities to all such qualified contractors.
